

linea pb

a heavy duty workhorse

AVAILABLE CONFIGURATIONS: MP | AV | ABR

AVAILABLE NUMBER OF GROUPS: 2 | 3 | 4

The Linea PB, designed by and named in recognition of Piero Bambi, introduces a new level of performance, reliability, and craftsmanship.

The machine features the iconic La Marzocco polished stainless steel body, updated with simplified lines and a lower profile, equipped with exclusive, user

friendly interface software that gives the barista direct functional control over boiler temperature, brewing volume, hot water tap dose, auto-back flush as well as other options.

The group cap features an integrated flow-meter to ensure that water never leaves the saturated area of the coffee

boiler, reducing temperature instability during brewing. The Linea PB is the first La Marzocco machine equipped with the new generation of proprietary electronics and iconic three-button interface.

standard features

dual boilers

Separate boilers optimize espresso brewing and steam production.

saturated groups

Ensure unsurpassed thermal stability, shot after shot.

dual PID (coffee and steam)

Allows you to electronically control coffee and steam boiler temperature.

insulated boilers

Reduce energy consumption while contributing to temperature stability.

digital display

Intuitive programming makes it easy to adjust machine parameters.

eco mode

Can be programmed to enter stand-by mode, improving energy efficiency.

USB

Making it possible to update the firmware.

Pro App compatible

Electronic board that allows connectivity with the La Marzocco Pro App.

½ turn steam valve

Steam valve fully opens in ½ turn, requiring less movement for the barista to steam milk.

water sensor

Measures the conductivity and hardness of water as it enters the machine.

auto back-flush program

Automatic cleaning program.

tall cups

Allows you to use the machine with tall, to-go cups (+2.5 cm / 1 in. in height).

Piero group caps

AV, ABR

Re-engineered internal water path and flow-meter positioning that increase temperature stability.

programmable doses

AV, ABR

Auto-volumetrics ensure repeatability and consistency in high-volume settings.

conical paddle **MP ONLY**

Assures progressive control of water flow and pressure before applying full pressure.

integrated scales

ABR ONLY

Precision scales integrated in the drip tray provide an improved level of consistency.

special order

barista lights

Led lighting allows you to focus on your extraction and the cup.

cup warmer

Maintain espresso and cappuccino cups evenly heated at a proper temperature.

high legs

Makes it easier to access beneath the machine.

personalized colors

Customizable colors based on the RAL color system, on request.
